substances in indoor air, with a risk of inhalation
toxicity, on a class scale from A+
(very low emissions) to C (high emissions)

EXPO **CRÉA** Carpet

— File format required —

		Minimum Definition	Minimum Dimension
PHOTOSHOP	TIFF (PSD)	150 dpi 300 dpi	SCALE 1:1 SCALE 1:2
ILLUSTRATOR	AI, EPS, PDF		

- * Your graphism width **must be 10 cm larger** than the carpet.
For example to print a 2 m wide carpet, the design must be 2.10 m.
 - * Think to add a length of 50 cm of safety margin at the beginning of the print file.
 - * Minimum thickness for the letters: 2 mm.
- Transfer your heavy files with www.wetransfer.com or Onedrive.

IMPORTANT

All our printed carpets are delivered without protective film.
We cannot guarantee 100% the exact joint between 2 printed carpet rolls laid side by side. Indeed, printing generates a slight stretching of the carpet resulting in a slight deformation of the pattern of up to ± 3 cm every meter.
Nonetheless, even with this variation, the result will be outstanding.
